Symptoms caused by exposure

- Symptoms:** No data available.
- Hazards:** No data available.

Medical attention and special treatment

- Treatment:** Not relevant.

5. Fire-fighting measures

- General Fire Hazards:** Do not use water jet as an extinguisher, as this will spread the fire. Use water spray to keep fire-exposed containers cool.

Means of fire extinguishing

- Suitable extinguishing media:** Alcohol resistant foam. Carbon dioxide Dry chemical.

- Unsuitable extinguishing media:** Avoid water in straight hose stream; will scatter and spread fire.

- Specific hazards arising from the chemical:** In case of fire, carbon monoxide and carbon dioxide may be formed.

Special protective equipment and precautions for firefighters

- Special fire fighting procedures:** Take precautionary measures against static discharges. All equipment used when handling the product must be grounded.

- Special protective equipment for fire-fighters:** Wear self-contained breathing apparatus and protective clothing.
